[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO SEPT. 19.

EASTERN STATES.

Smallpox at Lowell.

LOWELL, Mass., Sept. 18.—Twenty-one new cases of smallpox were reported in this city yesterday. The Superintendent of schools prohibits the attendance of children in whose families or immediate vicinity the disease shows itself.

Affairs in South Carolina.

CHARLESTON, Sept. 18.—A. J. Rhett, colored Lieut. Governor of South Carolina, and Chairman of the Republican State Committee, publishes a letter in the *News*, strongly opposing the proposed declaration of martial law. He thinks the civil power amply sufficient to repress existing disorder, and that martial law as a remedy would be worse than a disease.

Grand Lodge of Odd Fellows.

CHICAGO, Sept. 18.—The Grand Lodge of Odd Fellows of the United States commenced its annual session here to-day. P. G. M. Rogers delivered the welcoming address. Grand Sire Stuart responded. Four Grand Lodges and thirty Grand Encampments are represented. To-morrow there will be a grand procession which promises to exceed anything of the kind ever attempted in this city.

Massachusetts Politics.

BOSTON, Sept. 18.—The *Advertiser* to-morrow will have the following: "We have seen Senators Sumner and Wilson, and are authorized by them to say that they deeply regret and deplore the extraordinary meanness which Butler has precipitated on the commonwealth, and especially the attack against the existing State Government and the Republican party of Massachusetts, and that in their opinion his nomination as Governor would be hostile to the best interests of the State and party.

Masonic Celebration at Baltimore.

BALTIMORE, September 18.—Several thousand Knights Templars from Kansas, Pennsylvania, Ohio, New York, New Jersey, Missouri, Iowa, Illinois, Massachusetts, Wisconsin, Tennessee, Kentucky, Louisiana and other States, arrived here to-day, and will attend the grand conclave of the Grand Commandery of the United States and Grand Royal Arch Chapter, which meets here to-morrow.

Gen. McClellan Declines.

NEW YORK, Sept. 18.—Gen. McClellan declines to accept the office of Controller.

Connolly's letter to Hall declining to vacate his office, cites the Mayor's answer in court that he had no power if so disposed to remove the Controller, and announces a firm determination to hold the office. Judge Ledwith and a delegation of citizens called on acting Controller Green and assured him of their support. Chas. O'Conner, the eminent lawyer, has prepared a legal opinion in which he holds that Connolly is legally in possession of the office, and that Hall has no power to remove him.

In consequence of Hall's letter to the heads of various Departments, repudiating all official knowledge of Connolly or Green as deputy, the city paymaster has refused to pay any more warrants issued or signed by either of them. Laborers who are now holding warrants for their work will now be refused payment. Many of them have several months' pay due. All public works therefore will be stopped. Four thousand men are thrown out of employment. W. F. Havemeyer and other members of the commonwealth to the number of 70, have made arrangements by which a bank in this city will cash any warrants signed by the Controller and Deputy Green. They say the next Legislature will justify the action and pay back the money.

There were all sorts of rumors during the day and evening in reference to the office of Controller, many of which are mostly improbable. Late in the afternoon it was rumored that Hall will probably resort to force to get possession of the office, in consequence of which Connolly took all precautionary measures necessary for the expected emergency.

A verdict of the Coroner's jury this forenoon holds the proprietors of the Beekman street establishment, where the fire works explosion occurred, responsible for lives lost. Goldschmidt, one of the proprietors, was killed; Kircher, the other, is in the Toombs in default of bail.

The annual meeting of the Western Union Telegraph Company will be held in New York on the second Wednesday in October.

A motion was made before Judge Doty on the part of his wife to-day for the release of Richard Parsee, merchant, who has been for some time insane in the Asylum, and asking for his removal to Bombay. The motion was opposed by other relatives. The decision was decisive.

Stocks closed lower. Pacific Mail, 50½; Wells, Fargo & Co., 52; Mariposa, 2; preferred, 3½; Quicksilver, 15; Western Union Telegraph, 63½.

BY ATLANTIC CABLE.

French Affairs.

PARIS, Sept. 18.—The failure of the new Customs Treaty with Germany is imminent. German plenipotentiaries object to the alterations made by the Assembly. The Legislative Committee of Twenty-five will hold weekly sessions in intervals. The President of the Assembly and the Vice-President of the Assembly Committee will represent the Assembly.

Count Von Arnim dined with Thiers on Saturday.

The press urge the people to arise and take an active canvass in the coming elections for the General Council. The people of the Provinces are counseled to be careful in their choice, so that elections may show how the country stands on the great questions which now agitate it. The election will be held in October.

OREGON.

Mr. David Nowsom estimates the entire wheat crop of Marion county at 20 bushels per acre.

Mrs. Sawtelle, of Salem, has gone East to continue the study of medicine at Bellview College, New York.

The *Farmer* has a timely article on accidents from firearms, and warns parents not to permit small boys to go out with guns, unless older persons are with them.

The Secretary of the State Agricultural Society gives notice that no licenses will be required of persons who desire to sell hay, grain, meat, flour or fuel at the fair grounds.

A wagon loaded with shingles, belonging to a man named Hicks, living near Silverton, Marion county, was burned the other day. The wagon was stopped by fire in the woods, and Mr. Hicks had the greatest difficulty in getting his horses unhitched from it. One of the animals was so severely burned that it will probably die. Mr. Hicks was badly burned about the hands and face.

From the *Statesman*: T. W. Davenport has just returned from Siletz agency, having been employed in making a survey of the same. He states that the boundary lines are now established and the subdividing into sections completed. The arable land is also being subdivided into lots of twenty acres each for the benefit of the Indians. Mr. D. speaks in high terms of Gen. Palmer as Agent. The General is surely the right man in the right place.

CURRENT NOTES.

Through passengers East and West on the Pacific Railroads are now about equal in point of numbers.

The California State Fair is now in session. Ours comes too late in the year.

Up to August 1st the number of Germans arriving at New York the present year exceeded 50,000.

John Slidell left no will, and there are no heirs to his confiscated estate in Louisiana, and the public administrator has petitioned in the United States Court for possession of the property.

The Internal Revenue taxes yielded $309,000,000 in 1866. In the year ending June 30, 1871, the Internal Revenue produced by $142,098,153,63, of which $15,000,000 came from taxes now abolished.

On the 6th inst. the American Pomological Society held a Convention at Richmond, Va. Over 100 delegates were present, representing most of the States. Very extensive collections of fruits were exhibited.

Washington storekeepers and hotelkeepers as well, don't like it because the President summers at Long Branch. Nobody comes to Washington when he is gone, and the patriotic chapmen and publicans have no customers.

A woman near Ballville, Sandusky county, Ohio, recently gave birth to a child which weighed but one pound. It is now nearly four weeks old and weighs less than two pounds. At the time of its birth a lady's finger ring was slipped over its hand and arm to the shoulder. Hundreds of people have been to see it.

The other day one J. W. Ashburn called at a telegraph office in Portland, Mo., and sent an innocent dispatch of inquiry about his wife to Halifax. An hour later the worthy Collector of the Port was astounded at the receipt of a telegram from Halifax, which read: "To T. Washburn, Portland:—Your wife sailed for Liverpool yesterday with a young man."

At the capture of Detroit by the British in 1812, the records of the town were carried off. Most of them were got back again, but, for some reason, three valuable books of county records, belonging in the office of register of deeds, were not recovered. They have been since, and now are among the county records of Essex county, at Sandwich, Canada. Negotiations were entered into some time since by the authorities at Washington with the British government for the restoration of these public documents, which have been successful.

European Armies.

The *Eastern Budget* states that a series of tables showing the strength, cost, etc., of the various armies of Europe has just been published at Vienna. We extract from these tables the following particulars, which show the actual force that each country has at its disposal. The figures present a suggestive commentary on the "disarmament" which it was said would follow the overthrow of French preponderance in Europe:

Russia—47 divisions of infantry and 10 of cavalry, 8 brigades of rifles and reserve, 149 regiments of Cossacks, 219 batteries of artillery, and 150 mitrailleuses, making altogether 802,000 men, 184,000 horses, and 2,084 guns. (This includes the troops in the Caucasus, Siberia and Turkestan.)

Germany—18 corps, including 37 divisions of infantry, and 10 of cavalry, and 337 batteries of artillery. This force numbers 825,000 men, 95,724 horses, and 2,022 guns.

Austria—13 corps, including 40 divisions of infantry, and 5 of cavalry, and 205 batteries of artillery and mitrailleuses. The total force is 733,026 men, and 58,125 horses, with 1,600 guns and 90 mitrailleuses.

England—Army is in process of reorganization.

Turkey—6 corps of Nizam (regulars), 12 corps of redifs (reserves) and 132 batteries, making 253,289 men, 34,835 horses, and 732 guns.

Italy—4 corps, with 40 infantry and 6 cavalry brigades and 90 batteries; total force, 415,200 men, 12,868 horses, 720 guns.

France—10 corps, with 32 infantry and 12 cavalry divisions and 140 batteries; total force, 456,740 men, 46,995 horses and 984 guns. (including mitrailleuses.)

Belgium—145,000 men, 7,000 horses and 152 guns.

Holland—35,383 regulars, 87,000 militia, 3,290 horses, 168 guns.

Switzerland—160,000 men, 2,700 horses, 278 guns.

Roumania—106,000 men, 15675 horses, 96 guns.

Servia—107,000 men, 3,000 horses, 194 guns.

Greece—125,000 men, 1,000 horses, 48 guns.

Sweden—(including Norway)—67,604 men, 8,500 horses, 222 guns.

Denmark—31,915 men, 2,120 horses, 96 guns.

Spain—144,938 men, 30,252 horses, 456 guns.

Portugal—64,390 men, 6,320 horses, 96 guns.

From the above data it appears that the total of the forces available for war purposes in Europe (taking the English disposable force at 470,779 men and 336 guns), is 5,164,300 men, 612,394 horses, 10,224 guns, and about 800 mitrailleuses.

A negro preacher in Maryland lately buried a black-skidden member of his flock, a woman, and as a fearful warning to her surviving friends ordered the remains to be interred with the head downward. He then preached a sermon over the closed grave, and terrified his hearers by declaring that the spirit of the deceased had already gone to the infernal regions, and that theirs would follow, on their heads also, if they did not immediately reform their lives.

A dispatch from New York, 15th, states that Pat Logee, who was dismissed from the police force on account of dishonorable conduct during the July riots, has been nominated as a candidate for the Assembly.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

NEW YORK, Sept. 19.—The positive refusal of McClellan to accept the Comptrollership has caused confusion among Hall's adherents. The General stated yesterday that he declined verbally and emphatically to Hall soon after the reception of his letter, and in the afternoon wrote a written refusal. He thinks the situation very gloomy—declares he should be sorry if the alleged dishonesty of a few men could influence the vote of the Democratic party at large. The appointment of Green is one which he thinks gives satisfaction to all.

The publication of the Mayor to the various city departments that do not recognize either Connolly or Green will have a serious effect at the pay departments. It is announced verbally that no order of Connolly's would be obeyed; consequently employees must suffer deprivation of their pay until difficulties are settled. There is a growing sentiment in favor of Connolly. Even the *Times* thinks him entitled to some thanks for placing the documents of his office at the disposal of a Democrat whose honor is unsullied, and with whose verdict the public ought to be contented, no matter on which side it may fall.

WASHINGTON CITY.

American and British Claims.

WASHINGTON, Sept. 19.—The United States and British Mixed Commission under the Treaty of Washington for the examination and decision of claims of both countries, other than those known as the Alabama claims, held the first meeting at Washington, Monday the 25th. Right Honorable Russell Gurdon, M. P., is Commissioner on the part of Great Britain. Henry Howard, Esq., is agent, and James W. Carlisle, of Washington, is counsel for the British claims. Hon. James G. Frazier, of Indiana, is Commissioner on the part of the United States, and Hon. Robert S. Hale, of New York, agent and counsel for the American claims. The Commissioners will do nothing in the first day than submit, make and subscribe to a solemn declaration that they will examine and decide to the best of their judgment and according to justice and equity, all claims laid before them by either government, and also take measures for framing rules by which their actions will be governed. Judge Fraser writes a note, that he will be present Monday. Gurney is expected to arrive at New York from London, to-morrow. Carlisle has been the advising counsel for the British legation here during the last fifteen years.

Convalescence and Recovery.

Its rapid under his new and [illegible] mode of treatment. But very few, if any, nine of his age in the profession have been so universally successful as DR. ABORN. Combining with his knowledge, skill and experience in his special branch of the profession all that the last 14 years of the age on the late discoveries of medical science have brought to the aid of the medical profession, DR. ABORN is prepared to treat with almost unfailing success all such cases as may come under his care. He has within the past few years introduced into his practice many new and important remedies, with which, during his professional career, he has produced the most successful and satisfactory results.

DR. ABORN,

For twelve years has been devoted himself to the practice for the treatment of obstinate chronic diseases, especially such cases as have resisted all the ordinary modes of practice. He has found from his extensive practice five times as many patients annually as he personally could, and he treats them at their [illegible]. This he claims twelve years' office practice, exclusively devoted to special chronic diseases, is under that equivalent to sixty years' experience in general practice.

NO PAINFUL OPERATIONS.

DR. ABORN does not subject his patients to any painful or unpleasant [illegible]. His treatment is mild and safe for the most delicate child. The afflicted are to be informed that after the first visit, for many of the most [illegible] they can take their medicine at home and use it until cured, without pain or interruption to their usual avocations.

A political orator in New Orleans recently crowded history by referring to "the iron coffin of De Soto, containing the gold trumpet presented to that illustrious discoverer by Queen Victoria." "Why, you fool!" exclaimed an intelligent auditor, "Queen Victoria wasn't born for more'n two hundred years after De Soto died; an' how could she give him a gold trumpet?" "She left it to him in her will, solemnly replied the orator.

The following correspondence is said to have taken place between a merchant and one of his clients: "Sir, your account has been standing for two years; I must have it settled immediately." Answer, "Sir, things usually settle by standing; I regret that my account is an exception. If it has been standing too long, suppose you let it run a little."

THE TERRITORIES.

Small pox has disappeared from Walla Walla.

All the teams that can be secured are employed in hauling wheat from Walla Walla to Wallula, at $8 per ton.

Dr. Lamper, late Receiver at Olympia, is unlucky as well as—something else. He has lost on the street $500, and offers a reward for it.

Many emigrants who have come with teams across the plains have arrived at Walla Walla. Eighteen families arrived last week in one train.

Robt. G. Stuart—not Starke as our telegrams had it—is the man appointed to be Receiver of Public Moneys at Olympia, vice Lamper, removed.

The Walla Walla *Union* complains that the surveys in progress in the upper country are not in the right localities and entail a needless expenditure of money.

The Second Annual Fair of the Washington Territory Agriculture, Manufacture and Art Society (what's in a name?) is now in progress three miles below Walla Walla.

WEDNESDAY MORNING, SEPT. 20, 1871.

N. P. R. R. Lands.

The land grant belonging to the Northern Pacific Railroad Company has the extent of an immense empire. A more perfect organization than the land department of this company it is impossible to devise. In thoroughness of system and extent of detail it is unrivalled. The company are so managing affairs that the rush of immigration upon their lands as the road advances westward from Lake Superior, is immense and unprecedented. No effort is spared to so extensively and systematically advertised. The company intend to continue this system of advertising, and also to forward settlers to their destination, furnish them with houses and implements and set them up in the work of tilling the soil. In an official pamphlet recently issued by the Company, we find the plans and policy of the land department clearly outlined. Stated briefly, they embrace the following points:

First. A thorough examination of each section and each forty acres of land belonging to the company, with a plat or diagram exhibiting all its topographical features, the timber and prairie lines, streams, lakes, and with full descriptive notes on the character of the surface, the quality of the soil, varieties of timber, the lakes, the water, and the name of any settler thereon with his history and experience. These diagrams and field notes are all transferred to maps forming a perfect panorama of the whole belt of lands belonging to the company.

Second. The appraisement of the land by competent examiners.

Third. Full descriptions of each government section within the limits of the land grant, for the benefit of intending settlers under the homestead and pre-emption laws.

Fourth. When the lands are fully examined and mapped, local agents are to be placed at proper points along the line, having charge of districts of one or two hundred thousand acres of railroad and government land, with plats of the same, and blank applications for land. The agent is required to possess an intimate familiarity from personal inspection, with every feature of each forty acre lot. The agent is to receive land seekers consigned to him, show the land, and act as intermediary in the contracts between the land Commissioner and the purchaser. He is also to aid settlers in a great variety of ways. These local land offices are a new idea and a most excellent and useful feature of the general plan.

Fifth. As the length of constructed line and emigration advance, the plan looks to the organization of districts corresponding to the boundaries of States and Territories, with a general manager for each and subordinate local agencies, all under the Land Commissioner.

Nothing so thorough as this has heretofore been organized. Not only will the Company be able to realize large sums from the sale of their lands, to use in the construction of the road, but they will also fill up the country along the route with an industrial population who will make traffic for their road and add new and powerful States to the Republic.

Mayer's Station Proven.

We had hoped that truth and fairness would become rules of action with the Democratic organ under its new management; but its present course shows that it is as far from the needed reform as ever. Yesterday it had this:

> The Radical organ says that "the *Herald* has worried a great deal over (our) its observation that the people of the United States have discarded the State compact theory of government, organized by Jefferson." * * He made a statement the other day, not limited and hedged in like the one above quoted about a "compact theory of government," but a general and sweeping averment, in which he said "it was in order to inform that party (*Herald*) that Jefferson is no longer authority with the American people." We made a record of this averment, and have since reminded our neighbor of it frequently, very much to his discomfort; * * that we have held him fast, and intend to still hold him fast, to what he did in fact say.

Yet the editor who assumes this boastful tone is not holding us fast to what we did in fact say, but he is directly, and it seems to us intentionally, misrepresenting what we said. We quote the exact words of the OREGONIAN of the 1st inst., which the *Herald* has been misquoting ever since:

> Every now and then our Democratic neighbor appeals to Thomas Jefferson as an authority to show that State rights theories, national disintegration and old Democratic dogmas generally, are just the things. It is in order to inform that paper that Jefferson is no longer an authority with the American people *on these matters*.

That is, we said distinctly that Jefferson was not an authority on "State rights, national disintegration and old Democratic dogmas generally." Ever since, the *Herald* has been attempting to pervert this language so as to make us say that the doctrines of the Declaration of Independence, a document drawn by Jefferson, were no longer authority with the American people. That paper is convicted of disingenuous and unfounded statements in this matter. Its assertions in regard to our position are proven incorrect by the record. We did not make a "sweeping averment that Jefferson is no longer an authority with the American people;" we said distinctly that his teachings on State rights and kindred Democratic dogmas were not authority. The *Herald* well knows that it has been misrepresenting what we said. We may as well say again that the American people do not accept the truths of the Declaration of Independence because they were affirmed by Jefferson. They are older than Jefferson, and neither better nor worse for having been affirmed by him. The Democratic organ would do well to cultivate fairness and honesty, and not persist so obstinately in holding these qualities in sublime contempt.

The Jacksonville *Times* of Saturday last contains a long article criticising severely the action of Governor Grover in appointing L. J. C. Duncan Judge of Jackson county. It is alleged by the *Times* that Judge Duncan is a "bolter" and not a true Democrat, and that he is wholly unfit for the duties of the office. This appointment seems to intensify the Democratic quarrel in Jackson county.

The telegraphic dispatches continue to come loaded with accounts of the general uproar and muddle that have followed the defection of the New York thieves. But the Democratic organ of this city thinks the affair of little consequence, and would even prefer that it might never be mentioned again.

Gen. McClellan is likely to get an office at last, but is taking time to consider. He will hardly be able to decide before next spring. He wants time to arrange his "base," and intrench himself.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Sept. 19.—John H. Tricker, indicted for rape upon Pauline Sternberg, aged fourteen years, was tried in the Municipal Court to day and acquitted.

The Mayor and Auditor this week cancelled $219,600 six per cent., and 92,000 seven per cent. city bonds, redeemed by the Funded Debt Commissioners.

The damage by fire on Prospect Place this morning amounted to $3,000, partially insured.

Officer Dunlevy, who was stabbed by Schwartz on Saturday night, is recovering.

Coroner Letterman, Democrat, has summoned the first colored jury ever called in this State to act on the inquest in the case of the colored boy Williams, drowned in the bay Sunday week. Tom Hyer, the colored citizen of African descent in California who worked for and voted the Democratic ticket in the late election, is foreman of the jury. The inquest is now going on.

The report that a colored jury had been subpœned by the Coroner this forenoon is incorrect, to this extent that he has not summoned it, but the order is given for summoning them to-morrow.

Private dispatches say that the fire at Virginia City is now under control, but nearly the entire business portion of the city is burned with the exception of the Bank of California and Root's building. Wells, Fargo & Co.'s office was damaged. Loss is fully one million dollars. Comparatively small insurance.

INTERIOR CALIFORNIA DISPATCHES.

Agricultural Fair at Sacramento.

SACRAMENTO, Sept. 19.—The Agricultural Fair had a spirited opening and promises to hold out well. The weather which dampens the clothes of the patrons does not seem to have a like effect upon their spirits, as evidence the attendance at the Park to-day. The special feature of the exercises was the 3-year old running race one mile and repeat. It was won by John Hall's Ironclad in 2 straight heats, time 1:46½ and 1:46. Ironclad was sired by Woodburn. Horse sharps are excited over the event, it being the fastest time ever made in the State by 3 year olds.

LOS ANGELES, Sept. 19.—The surveying party of the Southern Coast Railroad, narrow guage. The main party are surveying a route through Soledad Pass; another party under Major Watson, camped at San Fernando, will run a line to Los Angeles, and thence via Tejon Pass, leaving San Bernardino to the right, will meet Robinson's party, go on to Fort Mohave and take the steamer for Fort Yuma, and then run a line from there to San Diego. Watson's party meet them at or near San Diego. The surveying party left San Francisco in April last and have been on the road six months. The line had been determined as far as San Luis Obispo; probably little if any will be made from there to Los Angeles.

A slight shock of earthquake was felt in San Bernardino Sunday morning between 9 and 10 o'clock.

The grape crop in most vineyards has been contracted for. Large contracts, embracing several thousand tons, have been made at $1 per 100 pounds.

A subscription is being raised in San Bernardino to aid the construction of a narrow-guage railroad to San Diego. Over five thousand dollars have been subscribed.

SAN DIEGO, Sept. 10.—The reduction made by the Board of Equalization on personal property, amounts to $55,395; balance, $1,666,442 on assessment roll of county.

NEVADA.

Great Fire at Virginia City.

VIRGINIA CITY, 3:30 P. M.—Everything is burnt south of the Taylor street express building and the Bank of California. All the brokers' offices on C street are burned out, on both sides from Daily & Goodsman's to the Tahoe House inclusive. Wells, Fargo & Co.'s office is on fire.

WINNEMUCCA, Sept. 19.—Wells, Fargo & Co. received to-day from Silver City, Idaho, 6 bars bullion for shipment, valued at $18,000.

Stages running to Silver City and Boise are loaded to their utmost capacity with passengers and freight.

Nineteen thousand head of sheep, owned by Hess & Williams, from Colusa county, passed through here en route to Battle Mountain; also 600 head of cattle, belonging to Hildreth, en route to Iron Point, Nevada. There is estimated to be nearly 200,000 head of cattle and over 175,000 head of sheep in this county. Large bands are daily arriving. The season has been very dry here and the country overrun with stock, and it is feared much of it will perish should the winter prove severe.

Butler's Campaign.

Massachusetts has generally gone on quietly with her 50,000 to 75,000 Republican majority. But this year there is an unusual ferment in the politics of that State. This is owing to Gen. Butler, who is in the field seeking the nomination for Governor. The better portion of the Republican party think it an insult to the reputation of the commonwealth for him to presume to be a candidate, and are laboring with energy to defeat his aspirations. Butler has been making speeches at different places in the State and has attacked in his usual bitter style all who are against him. His speeches are in execrable taste, and we cannot wonder that reputable Republicans are working with might and main to save the State and their party from the disgrace that would follow Butler's nomination. In case he succeeds in getting the Republican nomination, John Quincy Adams will stand a good chance of being elected. We should decidedly prefer such a result to Butler's success. Butler is a political guerrilla, totally without principles, and it will be to the credit of Republicans when they get rid of him. This they are likely to do, since he threatens to run independent in case he is defeated in the Republican Convention.

We have it from such organs as the *Herald* which are not very particular what they say, that the Republican party is about to collapse. When the American people become convinced that Jefferson's State compact secession theory is the right thing for this country probably it will.

The equalized valuation of all property in the State of New York, according to Assessors' returns, is $2,052,537,808. Of this New York City has $1,015,325,359, or nearly one-half.

According to the Jacksonville *Times* (Dem. the recent elections are a warning that the "new departure" must be thrown overboard.

Ordinance No. 1,072.

AN ORDINANCE TO REGULATE AND LICENSE certain places of amusements in the city of Portland.

The city of Portland does ordain as follows:

Section 1. That no person or persons shall employ any female or females in any house, cellar, bar-room, or drinking saloon within the city of Portland for the purpose of selling any wines, spirituous or malt liquors, or otherwise attending to the business carried on in such places without having been first duly licensed therefor.

Section 2. The rate of such license shall be fifty dollars per quarter, to be paid in advance to the City Treasurer, in addition to the regular retail Liquor license.

Section 3. That no person or persons shall keep any dance house in any cellar, bar-room or drinking saloon, or carry on dancing in connection therewith in the city of Portland without having been duly licensed therefor.

Section 4. That the rate of such license provided in Section 3 of this Ordinance, shall be seventy-five dollars per quarter, to be paid in advance to the City Treasurer, in addition to the regular liquor license and the license provided in section 2 of this Ordinance.

Section 5. If any person or persons shall keep any house, cellar, bar-room or drinking saloon in the city of Portland, where a female or females are employed for the above mentioned purpose, without taking out license therefor, such person or persons shall, upon conviction before the Police Judge, be subject besides the payment of the license, to a fine of one hundred dollars or imprisonment for a term not exceeding twenty days for every offence.

Section 6. If any person or persons shall carry on dancing as provided in section 3 of this Ordinance, without taking out license therefor as provided by this Ordinance, such person or persons shall upon convicting before the Police Judge, be subject besides the payment of the license, to a fine of one hundred dollars or imprisonment for a term not exceeding twenty days for every offence.

Section 7. That Ordinance No 334 and Ordinance No. 918, amendatory to Ordinance No. 334, be and are hereby repealed.

Passed the Common Council September 13, 1871.

Ordinance No. 1,066.

AN ORDINANCE RELATING TO CERTAIN ANIMALS and fowls.

The City of Portland does ordain as follows:

Section 1. No swine, sheep, goats, geese or ducks shall go at large in any of the streets, alleys, parks or public places in the City of Portland, under a penalty of five dollars to be paid by the owner or person having charge thereof, severally and respectively.

Section 2. Any of the Animals or fowls named in the preceding section found running at large shall be taken up by any police officer, or by any person, and delivered to a police officer and impounded, and if not claimed, shall be sold by the Chief of Police after notice has been twenty-four hours' posted in a conspicuous place at the Postoffice in the city, upon the yard or enclosure where such animal or fowl shall be confined.

Section 3. If before the sale such animal or fowl shall be claimed by the owner or owners thereof, the Chief of Police may deliver up the same upon the payment of costs and charges.

Section 4. The provisions of Ordinance No. 235 entitled, "An Ordinance to prevent horses or cattle from running at large within the limits of the City of Portland, between certain hours," and the amendments thereto, shall govern the Chief of Police in relation to the care and sale of the animals and fowls named in Section One of this Ordinance, and in no instance shall the owner be entitled to the fine prescribed in said Ordinance No. 235.

Section 5. Any of the animals or fowls named in Section One of this Ordinance, kept within the city, shall be kept in proper inclosures, and such inclosure shall be kept properly cleaned and free from stench, under a penalty of five dollars for each offense, and whenever such pen or inclosure shall become a nuisance, the Chief of Police shall abate and remove the same at the cost of the owner.

Section 6. The penalties hereinbefore provided by this Ordinance shall be forfeited upon conviction before the Police Judge, with costs of prosecution.

Section 7. Ordinance No. 245, entitled "An Ordinance relating to swine," is hereby repealed.

Passed the Common Council September 7, 1871.

HAVING BOUGHT THE INTEREST OF MESSRS. Tubbs & Patten, of the Cosmopolitan House, and secured a lease for a term of years of this well known and elegantly furnished Hotel. His previous reputation ensures its being kept in first class style, while in order to keep pace with the times he intends to make important reductions in the scale of charges. His intention is to make it a family and business house, while its large connection with the traveling public, warrants him in expecting a large amount of country Pacific Coast and Eastern patronage. The prices will range from two to three dollars a day for ordinary accommodation. Regret by the week or month as per contract. The Table will be kept on the most liberal scale and many improvements introduced. The spacious reading room is the finest of the kind in the city, while the furniture and fittings generally are superior to those of any hotel in San Francisco. The house will be thoroughly overhauled. H. PEARSON assumes proprietorship this day, August 5.

CITY.

AN OLD LAW CASE COMPLICATED.—The pub is generally aware that a stupendous lawsuit pending between rival claimants of the Caruth estate in this city—the parties on one side claiming by right of purchase from heirs dug up in one the Southern States; on the other, through p chase of "Wrestling Joe," said to be the fat of Prince Caruthers. It will be recollected th two or three years ago, Messrs. Terwilliger a Stephens put in a claim acquired by purchase an interest of the heirs of one Johnson, a Briti subject, who it is claimed, settled upon and i proved the claim prior to the time of Caruthe and died upon it. At that time the country w in the joint occupancy of the United States a Great Britain. These latter parties claim th Johnson died seized of the ownership, and th his right or that of his heirs, was never extin guished. This claim was tried in our courts an upon appeal, the Supreme Court decided adverse ly to it. Yesterday, Col. W. W. Chapman attorney for the claimants, filed a motion for a appeal to the United States Supreme Court, an the appeal was allowed. This action complicate the controversy, and such a thing is possible a that it may eventuate in the overthrow of bo the other contending parties.

A HEAVY TRAIN.—The freight train whic came down last evening consisted of twenty-thi box and flat cars. Of these, twenty were loade with wheat, taken up at various points fro Harrisburg to Canby City, each car containing a average of about ten tons; total, two hundre tons. One car was loaded with oats, two or thre with flour and the balance with miscellaneou freight. The passenger coach was full of passen gers. Altogether, the train was just about a heavy as the locomotive could drag; in fact, it di got stalled in coming down one of the long grade this side of the Clackamas bridge, and had t back down a couple of times and take a run at it Upon the arrival at the depot, the locomotiv was run as far forward as the track would allow and then the passengers got out of their car abov the upper end of the Company's warehouse. O the trip down, the locomotive was entirely out o sight of the passengers in the coach.

LIGHTNING CALCULATOR.—One of those fellow has come to Oregon, and every night, of late, h has held forth in Portland, much to the amusement instruction (?) and profit (?) of the promiscuou crowds which flock to hear him, and also much to the enlargement of the lightning fellow's pe cuniary book. But, really, the fellow does tal like a streak of lightning, and his calculator a though he were chock full and gushing over wit the lightning of calculation. He has a system his system's for sale, and that's what's the matter It is calculated that he is doing a pretty fair business among the spooneys—showing them how to calculate by lightning, and then taking their coin for his system.

DANGEROUS PRACTICE.—The locomotive trav eling up and down on the Fourth st. track was beset on all sides by children, who tried to outrun each other in venturing nearer than each other. Often passing across the track in front of it, and at other times running ahead of it, of course, some distance ahead. Farmers should see to it that this is stopped immediately, as a false step, slip, or any accident is liable to occur at any moment to the boy venturing across

CITY.

AN OLD LAW CASE COMPLICATED.—The public is generally aware that a stupendous lawsuit is pending between rival claimants of the Caruthers estate in this city—the parties on one side claiming by right of purchase from heirs dug up in one of the Southern States; on the other, through purchase of "Wrestling Joe," said to be the father of Finice Caruthers. It will be recollected that two or three years ago, Messrs. Terwilliger and Stephens put in a claim acquired by purchase of an interest of the heirs of one Johnson, a British subject; who it is claimed, settled upon and improved the claim prior to the time of Caruthers, and died upon it. At that time the country was in the joint occupancy of the United States and Great Britain. These latter parties claim that Johnson died seized of the ownership and that his right or that of his heirs, was never extinguished. This claim was tried in our courts and upon appeal, the Supreme Court decided adversely to it. Yesterday, Col. W. W. Chapman as attorney for the claimants, filed a motion for an appeal to the United States Supreme Court, and the appeal was allowed. This action complicates the controversy, and such a thing is possible as that it may eventuate in the overthrow of both the other contending parties.

A HEAVY TRAIN.—The freight train which came down last evening consisted of twenty-nine box and flat cars. Of these, twenty were loaded with wheat, taken up at various points from Harrisburg to Canby City, each car containing an average of about ten tons; total, two hundred tons. One car was loaded with oats, two or three with flour and the balance with miscellaneous freight. The passenger coach was full of passengers. Altogether, the train was just about as heavy as the locomotive could drag; in fact, it did get stalled in coming down one o' the long grades this side of the Clackamas bridge, and had to back down a couple of times and take a run at it. Upon the arrival at the depot, the locomotive was run as far forward as the track would allow, and then the passengers got out of their car above the upper end of the Company's warehouse. On the trip down, the locomotive was entirely out of sight of the passengers in the coach.

LIGHTNING CALCULATOR.—One of these fellows has come to Oregon, and every night, of late, he has held forth in Portland, much to the amusement, instruction (?) and profit (?) of the promiscuous crowds which flock to hear him, and also much to the enlargement of the lightning fellow's pet pocket book. But really, the fellow does talk like a streak of lightning, and he calculates as though he were chock full and gushing over with the lightning of calculation. He has a system; his system's for sale, and that's what's the matter. It is calculated that he is doing a pretty fair business among the spoonoys—showing them how to calculate by lightning and then taking their coin for his system.

DANGEROUS PRACTICE.—The locomotive traveling up and down on the Fourth street track was beset on all sides by children who tried to outvie each other in venturing nearer than each other. Often passing across the track in front of it, and at other times running ahead of it—of course, some distance ahead. Parents should see to it, that this is stopped immediately, as a false step, slip, or any accident is liable to occur at any moment to the boy venturing across the track ahead of the locomotive, and before recovering himself be killed or else severely injured.

STEAMERS TO SAIL.—The steamship *Ajax*, Fred Foltz, Commander, will sail for San Francisco at 7 o'clock P. M. Thursday, the 21st inst.

The propeller steamship *California*, John Hayes, Commander, will sail for Puget Sound ports and Victoria at 7 o'clock P. M. next Saturday.

The *Geo. S. Wright*, Ainsley, Commander, will sail for Sitka and way ports on the 1st of October.

ARRIVAL OF IMMIGRANTS.—A considerable number of immigrants, and among them several men with families, arrived by the steamer *Ajax*. The train of yesterday morning took a number of them to Oregon City and other points up the valley. The passenger coach was crowded to its fullest capacity, and a considerable number of way passengers were compelled to go in the baggage car.

A BRACE OF RUNAWAYS.—Yesterday a span of horses took fright at the locomotive on Fourth street and ran away, leaving the wagon to which they were attached piled up against a wood pile at a street corner. One of the four horses teams belonging to M'lle Jeal & Co.'s Circus ran away just because they could. They spilled the driver and smashed the wagon.

BUSINESS AT OREGON CITY.—Old residents of Oregon City inform us that there is now and has for some time, an unusual prevalence of ague and kindred diseases there. A number of people have been affected with the ague this season who had lived there for twenty years or more without having it. No apparent reason for the fact is mentioned.

INCREASING TRAVEL.—The increasing travel upon the river boats and railroad is very large. The *Oneonta* almost every trip comes and goes with a large number, as does also the *Dixie Thompson*, *Fannie Troup* and *Rescue*. The California and Oregon Railroad passenger cars are all the time well filled.

FIRES IN THE WOODS.—Never before have the annual fires in the woods in the neighborhood of Milwaukie been so destructive of timber as this year. In some places almost every tree and fallen log were destroyed. The burnt district looks as if it had had an emphasized dose of the besom of destruction.

BIG TRIP.—The steamer *Vancouver* took over to Vancouver yesterday afternoon the biggest list of passengers and freight carried to that place this season. The largely increased trade between Portland and Vancouver is a fair index of the growth of the latter town and the surrounding country.

CIRCUS.—The company, horses and property belonging to M'lle Jeal & Co.'s Circus were taken over to Vancouver yesterday afternoon by the steamer *Vancouver*. The company opened last night and will play at that town during the Agricultural Fair, after which they will return to this city.

LIVELY APPEARANCE.—The upper part of town presented a lively appearance yesterday, owing to the large number of farm wagons in the streets. In the morning they came laden with products of the farms, and in the evening the majority were loaded with groceries for farm use on their return home.

REPORTED RISE IN FREIGHT.—It is reported here that the teamsters plying between Wallula and Walla Walla have raised the price of freight to ten dollars per ton. If the rumor be correct the action of the teamsters will be very rough on the Walla Walla producers.

MONEY ORDERS ON GREAT BRITAIN.—In accordance with the treaty recently concluded between England and the United States, Postmaster Wakefield of this city will begin, on the 22d of October, to issue money orders on Postoffices in Great Britain.

LIBERAL SUBSCRIPTION.—We have learned that recently a private subscription of one thousand dollars was raised in this city in aid of the Presbyterian Home Mission Society. Portland was the first town on the Pacific coast to subscribe to this fund.

RAILROAD CONSTRUCTION.—Every day, long trains of cars loaded with railroad material are sent to the front. People up that way begin to wonder where in all the world there was room enough for it all, before it was sent up the road.

LIGHT HOUSE STEAMER.—The Light House steamer *Shubrick* paid Cathlamet Bay a visit yesterday. The *Oneonta* coming up met her returning to the mouth of the river.

MERCANTILE AGENCY.—R. G. Dun & Co. we learn will shortly open in this city a branch of their extensive mercantile agency.

ACCIDENT.—A little boy of Mr. A. Hamilton, street contractor, was thrown from a dirt cart yesterday and had an arm broken.

THROUGH.—It was reported yesterday afternoon that the railroad track would be completed to the high bridge last night.

EXPECTED TO SAIL.—The bark *Skiddaw* is expected to go to Astoria on Friday and to sail immediately for Cork.

"DESTITUTION IN PORTLAND."

TO THE EDITOR OF THE OREGONIAN:

The case of destitution mentioned in your paper yesterday has not only been attended to by the excellent organizations therein mentioned, but the family has been supplied with all the provisions they asked for by the St. Vincent de Paul Society, who have charged to educate, feed and clothe all the smaller children, six in number. I fear, however, nothing can be done for the case mentioned, as it is one of those unfortunate cases where a precarious living by begging is deemed preferable to an independent livelihood earned by honest industry.

Yours, very truly,
A CITIZEN.

PERSONAL.

Rev. G. P. Weaver, the new pastor of the Lutheran Church, arrived by the *Ajax*, and is stopping for the present at the house of Rev. A. Myers on Fourth street.

Mr. O. S. Phelps has received a letter from A. M. Mead of Vineland, New Jersey, who intends to come out to Oregon with his family. Probably several neighbors will accompany him. Mr. Mead wishes information about the cost of the trip and the chances for business here, which Mr. Phelps has supplied.

R. E. Doyle, Esq., with Isaac Friedlander, the largest grain merchant in California, called upon us yesterday. Mr. Doyle is here to see to the delivery of some wheat. He expresses himself well pleased with Portland and Oregon and our future prospects.

BUSINESS NOTICES.

FALL STYLE IN HATS.—Mosscrop has received several new styles in hats, among others a cork lined water proof hat—a good thing for the rainy season.

DISEASES OF THE RESPIRATORY ORGANS.—Catarrh, Bronchitis, Asthma and all affections of the throat and lungs are successfully treated by Dr. Aborn—at the St. Charles Hotel. Medicated inhalations and the most modern and scientific methods are practiced by Dr. Aborn.

BOOTS AND SHOES.—We invite the attention of all traders and merchants to the advertisement of Messrs. J. Kraemer & Co., in another column. This firm is too well known for business enterprise and dealing to require an extended notice. Mr. Aiken of firm went East and personally supervised the selection of one of the largest and best selected stocks of boots and shoes imported to the Pacific coast, which they offer at low rates to the trade.

L. M. STARN.—This old and well established house has changed management. The present managers are A. D. McDonald and J. W. Buchanan. Under the management of these gentlemen the firm cannot do otherwise than on, as it deserves. From excellent facilities possessed a large trade. Mr. McDonald was formerly in business in California where he is well known in mercantile circles, and Mr. Buchanan has been engaged in business in Walla Walla, W. T., both of whom bring the best of names as a guaranty that all dealing with them will be thoroughly satisfied. Read their advertisement in another column.

PORTLAND LIBRARY.—The following list contains the newest and latest works on religion, science, biography, poetry and fiction, placed in the Portland Library:

Over-doctored.

Without any disrespect to the members of the medical profession, a profession honored by all thinking men, it is only just to say that they are too thick on the ground. The consequence is that the community is doctored over much. When nature needs only the gentle stimulant and alterative which has become famous throughout the country as a reliable medicine, under the name of Hostetter's Stomach Bitters, she is not unfrequently dosed with a dozen prescriptions, all experimental, from the Pharmacopœia. This is an evil, and proves that the practice of medicine is far from being at all times a healing art. At this period of the year, when the fall of the leaf indicates that decay has seized upon the vegetable kingdom, many harassing diseases are prevalent. Chief among these may be mentioned intermittent fever and bilious remittent. The exhalations arising from the decomposing vegetation, and the heavy dews and fogs, are very apt to generate these complaints. The wisest policy is to protect the system by a course of Hostetter's Stomach Bitters at the commencement of the fall. Much suffering may thereby be avoided. But if the disease has already begun, its periodical visitations may readily be checked and broken up by this active, yet harmless, vegetable tonic.

But be on your guard against the charlatans who are attempting to palm off, under various names, unwholesome compounds, which they pretend to compare favorably with the great national elixir, which has long swept more formidable opposition from the field. Bear in mind that every bottle of genuine Hostetter's Stomach Bitters is authenticated by a splendidly engraved label, and a fac simile of the sign manual of the firm. Put up in bottles only, and cannot be obtained in bulk.

RAILROAD LANDS.
OFFICE OF LAND DEPARTMENT,
OREGON & CALIFORNIA R. R. CO.
AND
European and Oregon Land Co.,
PORTLAND, OREGON, August 3, 1871.
THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of securing them on the following terms:
The applicant filing in this office a claim in the form prescribed, to-wit:
Pre-emption } date, No. ——
To the Land Agent of the European and Oregon Land Company:
SIR: You are hereby notified that I have settled upon and improved (description of land) in the county of State of Oregon, containing —— acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully assent:
"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, within sixty days from notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."
(Name of applicant.)
(Postoffice address.)
When the application is received, a certificate, signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form:
PRE-EMPTION CERTIFICATE, No. ——
This is to certify that ——, of —— county, State of Oregon, has this day filed in this office a pre-emption claim to (description of premises), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation, (which is to be made without reference to improvements) when the same shall be placed in market, in accordance with a resolution of the Board of Directors of said Company, adopted May 26, A. D. 1871.
When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party or the holder hereof within sixty days from the date of said notice, the Company will be at liberty to sell the land to any other person.
(Signed) ——
Land Agent of the O. & C. Land Co.
The lands will be appraised by a competent, disinterested party, under oath, at their actual present value—no fancy or prospective price on the basis of similar lands in the vicinity, and when appraisement is made they will be sold in quantity not exceeding one hundred and sixty acres to one person, payable in five equal annual instalments, with interest from date of contract, at ten per cent. per annum, principal and interest payable in United States Legal Tender Notes, or Warrants drawn after United States Patent issues, upon payment in full.
Blank forms of application furnished upon request.

PETROLEUM FLUID
Perfectly FREE from the Danger of Explosion.
THIS FLUID, AFTER YEARS OF PATIENT EXperiment, and the expenditure of over one hundred and fifty thousand dollars, has been produced by R. F. DANFORTH, of Cleveland, Ohio, and has been introduced with perfect success.
IT CANNOT BE EXPLODED in a lamp, or in any way, or by any known test.
IT IS FREE FROM GREASE AND FILTH, and will not injure the finest fabric.
IT IS FREE FROM ALL DISAGREEABLE ODOR, and in this respect is preferable for a night lamp.
It gives a purer, more brilliant, and at the same time softer light than any oil or fluid in use, and is fully equal to gas light.
IT DOES NOT SMOKE THE CHIMNEY in the least.
A gallon of it will burn as long with the same height of blaze as Kerosene.
It is more easily extinguished, when ignited, than Kerosene.
It is strictly pure, containing no mixtures or chemicals, burns in an ordinary Kerosene lamp, with simply changing the burner, with or without a chimney.

An Instructive Comparison

A Washington letter of the 6thinst contains this

It is an instructive and striking fact that while the New York Ring has spent for stationery for the county alone, during the past two and a half years, not including law books or blank books, the enormous sum of $850,000, or at the rate of $340,000 per year, the entire expense of all the stationery used by the Treasury Department at Washington with its 2 200 employees, all faithful workers and no sinecurists, is only $45,000 per year A rough comparison showing that the entire expense of the Government printing for Congress, and all the Departments, with its many hundred thousand volumes of reports of all kinds, does not exceed the probable annual expenditure for printing and stationery for the city and county of New York The total cost to the present day of the magnificent Treasury building, which is, next to the Capitol, the largest building in the United States, and which is nearly six times the size of the Metropolitan Hotel, No. 36 North Front street

The paper giving the above information assigns as a cause of no prospective reduction of stocks that a vessel was on the way from that port with cargo of assorted produce Such is not the case as the *H W Wood* had arrived five days previous to the publication of the paper, and no other vessel that we are aware of had cleared for the Islands The *Jane A Falkinburg* will take cargo, principally from the ¤¤¤¤¤ ¤¤ for the Hawaiian Government

Latest advices from Valparaiso report increased inquiry for Wheat at $3 @3 20@3 25@3 ¤¤ Freights to England, $2 10@2 ¤¤ the range to the Continent, $3 @3 75 to 4. The disengaged tonnage in port amounted to 7,000 tons.

By mail we have receipts of the cause of advance in gold on September 5th Gold speculators were in doubt as to the amount of September gold sales, but all seemingly claim to that Mr. Boutwell will sell $2,000 000, based upon the following "New York (New York pays about three-quarters of all the customs) imports average payments for duty amounted to over $4 000,000 for each week in the month of August and that for the month of September it was claimed the amount of duty paid would equal about $17,000,000 and to equalize gold the sales would amount to $20,000,000 for this month but when Mr. Boutwell approved his intention to only dispose of $8,000,000 for the month of September, thus drawing into the Treasury over $10,000,000 and only selling $8,000,000, making from the importers the use of $2 000,000 when the banks only showed a little over $10,000,000in gold caused speculators to form a corner forcing gold as noted by us to 114¾ where it remains at this writing The uncertainty regarding Mr Boutwell's future course in redeeming $100,000,000 of the 5-20s of 1862 as advertised on the 1st of December causes gold to remain as quoted, and until his course is publicly announced it is hardly likely Gold will advance any higher The leading papers East in their financial columns, are calling on Mr Boutwell to commence redeeming now by calling in at stated times, from $10,000 000 to $20,000,000 thus affording relief to the Gold market and keeping down the price of Gold. No further advance in Gold under operation of the corner, would indicate a belief that if forced any higher Mr Boutwell would commence redeeming, causes a rapid decline with lot selling heavily on the Gold clique. One of the curiosities of undertakings in trade, but the natural result of paper and specie currency, is nearly all sales made in New York are made payable in specie by written contract or agreement, the result of this movement, which is rapidly spreading to other large commercial cities, will be to the heavy detention of specie in all business transactions, thus aiding Mr Boutwell in his scheme (as claimed by many) to get early return to specie

Ordinance No 1064.

AN ORDINANCE TO CHANGE THE GRADE OF North Fourth north and South Fourth streets

Whereas it is necessary to change the grade of North Fourth and South Fourth streets as specified in Section one (1) of this ordinance in order to have the property adjacent to the Oregon Central Railroad Company and in order to facilitate the construction of the railway through the city and the proposed change is wholly for the benefit of said Company and whereas the said Oregon Central Railroad Company has this day filed in the office of the Auditor a bond of which the following is a copy

Know all men by these presents That the Oregon Central Railroad Company, a corporation duly organized under the general incorporation law of the State of Oregon and having its principal office and place of business in Multnomah County, Oregon, being authorized by a resolution of the Board of Directors duly passed as of this date; and J C Ainsworth R R Thompson and S G Reed as sureties are held and firmly bound unto the City of Portland (for the benefit of whom it may concern) in the full penal sum of twenty five thousand dollars in U S gold coin of the United States of America, for the payment of which we and each of us bind ourselves our heirs executors and administrators firmly by these presents

Sealed with the corporate seal of said Company and also with the private seals of said J C Ainsworth R R Thompson and S G Reed and witness the signatures of Holladay Prescott and R R Towler, Secretary of said Company, and also the signatures of said J C Ainsworth R R Thompson and S G Reed as sureties hereto all at Portland Oregon, this 7th day of September A D 1871

Whereas the City of Portland did on the 6th day of January, A D 1869 by its Mayor and Common Council enact an ordinance entitled "An ordinance authorizing the Oregon Central Railroad Company of Portland to lay a railway track and run cars over the same within the city of Portland and, whereas in order to make it practicable for said Oregon Central Railroad Company to lay its said railroad along the streets designated in said ordinance it is necessary to change the grade of the said streets so designated to-wit Fourth street and North Fourth street and South Fourth street, in the said city of Portland, and for which purpose an Ordinance has been introduced into the City Council of said city entitled 'An ordinance to change the grades of South Fourth, Fourth and South Fourth streets' and which ordinance is now pending before said body, having been referred to the Committee on Streets and Public Property therefore,

The condition of the foregoing bond is such that if the said Oregon Central Railroad Company will in laying the said railroad track along the streets hereafter designated at its own cost and charges change the grade and other improvements of said South Fourth street North Fourth street and South Fourth street and of the cross streets now extending beyond the intersections of Third, North Third and South Third streets on the east, and Fifth, North Fifth and South Fifth streets on the west, wherever any of the before-mentioned streets have been heretofore improved so as to make the improvements conform to the grades where so changed, (in case said change of grade shall so make) then this obligation to be void, otherwise in full force.

Witness the corporate seal of said Oregon Central Railroad Company hereunto attached by R. R Towler, Secretary thereof, by order of a resolution of the Board of Directors of said Company duly duly passed at a meeting duly called and legally held for such purpose Witness also the signatures of Ben Holladay President, and R R Towler, Secretary and Company Witness also the bonds and private seals of J C Ainsworth R R. Thompson and S G Reed, sureties in this Bond All done in Portland, Oregon at the office of the Oregon Central Railroad Company this 7th day of September, A D 1871
